

CASE STUDY **COMMERCIAL**

Club 39 - Monaco

BRIEF

Audio Video, IT and Security systems for a high quality, private members fitness club in Monaco.

TECHNOLOGIES

Systems included:

- ◆ Video Wall for Spinning Room
- ◆ IP Video distribution from WYRESTORM
- ◆ Cisco Network providing infrastructure for:
 - ◆ PoS systems
 - ◆ Telephony
 - ◆ CCTV and access control

RESPONSE

Icon Connect worked closely with the project team and consultants to develop a robust and flexible solution, capable of adapting to the changing nature of multi-function fitness spaces.

The chosen solutions are IP based to enable screens and speakers to be re-positioned at will to adapt to the requirements of the management.

Solutions also included for connection of portable "Venue" systems on the exterior terrace for parties / events as an extension to the restaurant and bar hospitality areas.

TESTIMONY

"Icon Connect provided a professional and high quality technology solution for this ground-breaking project. Their project management and implementation was first class from start to finish."
