

CASE STUDY **COMMERCIAL**

The Knightsbridge - London

BRIEF

Replacement of the ageing lighting system with a more robust solution, easier to use, easier to support and more feature rich.

TECHNOLOGIES

Systems included:

- ◆ Lutron Athena lighting dimmers
- ◆ Custom made lighting cabinets
- ◆ Custom finish keypads

RESPONSE

Icon Connect supplied and configured a fully integrated Lutron Athena lighting system with over twenty custom cabinets

Systems also included:

- ◆ Occupancy sensing
- ◆ Photocell sensing
- ◆ RGB mood colour changing
- ◆ Spa relax frequency changing
- ◆ Bespoke custom user interface
- ◆ Low energy management

TESTIMONY

"Icon Connect provided a professional and high quality technology solution for the replacement of the house lighting system here at The Knightsbridge. The greatest challenge that they overcame was that the development had to continue to run seamlessly, which they achieved with great success". Chris Barrass – Managing Director
